# Thinking of moving to New Jersey?

The Gold coast

strikes a balance

between *high rise living*

and

the *serenity of the suburbs.*

The Chen Agency specializes in luxury high-rises, condos and town homes on the Hudson River's famed Gold Coast.

Nelson Chen has distinguished himself as one of the most successful and respected Realtors in the industry, garnering a plethora of awards, commendations and accolades. In addition to being named 1990's Realtor of the Year by the Eastern Bergen County Board of Realtors, in 1998 he was awarded Lifetime Membership in the NJ Association of Realtors Million Dollar Sales Club, after having accumulated more than \$100 million in sales over a 10-year period. Yet even while nurturing his own thriving business, Nelson has always made a point of giving back to the community that's made him a success, serving as a member of the Board of Trustees of the NJ Realtors' Educational Foundation—which awards academic scholarships to New Jersey students—and acting as President of the New Jersey Multiple Listing Service, a nonprofit organization that provides detailed listing information on properties in Bergen County and surrounding areas to over 6,000 member real estate agents.

Setting an example for every member of his hand-picked support staff and team of experienced agents, Nelson firmly maintains it's the Chen philosophy of "putting the client first without exception" that's made the Chen name synonymous with superior service and complete satisfaction. "We are truly dedicated to being the best in the real estate brokerage business."
